Nomad Guides - The Backbone of Nomad

ALL our guides who drive are road tested by our Workshop Manager.

Their performance is scored and follow up training is provided to increase their drivingskills.

Salaries are incentivised by way of client feedback.

All guides are tested on their knowledge by way of exams before every tour.

Our in-house training academy takes young people, including disadvantaged tourism students and turns out superior guides.

OUR WORKSHOP
Ensuring Quality and Comfort
on Tour

Our Workshop is a registered truck body builder.

Our trucks are custom built by us to suite the needs of our clients and are the nature of an adventure tour and are SABS (South African Bureau of Standards) approved.

All vehicles departing out of our Cape Town workshop are drive tested by our Fleet Manager.

All vehicles departing Cape Town are still physically inspected by Alex Rutherford, founder and owner of Nomad.

Green Seats - Make a change!!

Simply put, this enables clients to buy Green Seats that offset the carbon emission cost of their tour by supporting the planting of an endemic species of plant that can absorb large amounts of carbon output. (Spekboom)

Nomad Guides - The Backbone of Nomad

ALL our guides who drive are road tested by our Workshop Manager. Their performance is scored and follow up training is provided to increase their driving skills.

Salaries are incentivised by way of client feedback. All guides are tested on their knowledge by way of exams before every tour.

Our in-house training academy takes young people, including disadvantaged tourism students and turns out superior guides.
